

RX Pet Food

Thank you for ordering your pet's prescription food. This food is important in the maintenance of your pet's health and/or recovery. There are just a few things we would like to take a moment to point out. If your pet has been prescribed Purina Veterinary Diets or Hills Prescription Diet we are happy to order this for you. We place our orders on Monday at noon and it is received by the end of the week. Please try to call and let us know of orders about a week in advance to ensure that your supply doesn't run out while we are waiting on an order. Prescription diets are available only at your veterinarian's and cannot be found over-the-counter. As well, by state law only a veterinarian with a doctor/patient relationship can prescribe this food for your pet.

In the event that a Monday falls on a holiday we will complete our orders the Friday before noon and expect the food by the end of the following week.
Expected Monday holidays are as follows:

Independence Day
Labor Day
Memorial Day

We thank you in advance for your order,
Sincerely,

Springfield Veterinary Center
